

20th Symposium Series of Young Asian Biochemical Engineers' Community

YABEC 2014

Chiayi, Taiwan
6-8 November, 2014

Welcome Message

Website: www.yabec2014.com.tw

The Symposium series of Young Asian Biochemical Engineers' Community (YABEC) will mark its 20th anniversary this year. On behalf of the YABEC 2014 Organizing Committee, it is my great pleasure to invite you to the very meaningful 20th YABEC symposium, which will be held in National Chung Cheng University, Chiayi, on November 6-8, 2014.

The YABEC symposium has been held annually without interruption ever since the very first YABEC which was held in Seoul 1995. Upholding the YABECian Spirit, the YABEC has now become a key event for young Asian biochemical engineers and scientists in other biotechnological areas.

From 2011, the YABEC meetings are organized under the auspices of Asian Federation of Biotechnology (AFOB). Therefore, the YABEC 2014 is organized with the support of Biochemical Engineering Society of Taiwan (BEST), the collaborated partner of AFOB in Taiwan. There were four YABEC symposiums previously held in Taiwan in different cities: Hulan, Taipei, Kaohsiung and Taoyuan. This year, we look forward to seeing you in the beautiful Chiayi County, where the famous Mt. Alisan is located.

Wen-Chien Lee

Chairman, Organizing Committee of YABEC 2014
National Chung Cheng University, Chiayi
E-mail: chmwcl@ccu.edu.tw

Scientific Program

- Plenary Lecture: Prof. Diethard Mattanovich
- Keynote Lecture
- Biofun Lecture
- Oral Sessions:
 - ◆ Special Session: YABEC Classic
 - ◆ Session A: Biocatalysis and Bioprocess Engineering
 - ◆ Session B: Applied Microbiology and Systems Biology
 - ◆ Session C: Biochip/Biosensor and Medical Biotechnology
 - ◆ Session D: Bioenergy, Biorefinery, and Environmental Biotechnology
